

# A New Generation of Subfloor Screws

The new Strong-Drive® PPSD Subfloor screw has been specifically developed for fastening subfloor sheeting to steel using the Quik Drive® auto-feed screw driving system.

## Features

- Deep-recessed 6-lobed ribbed head provides clean countersinking and more secure bit retention for fewer cam-outs.
- The holding power of PPSD screws reduces the gaps between the joist and subfloor that cause floor squeaks.
- Optimal fastener length for 19 mm to 22 mm subfloor sheeting.

Deep 6-Lobe recess provides improved control and greatly bit life

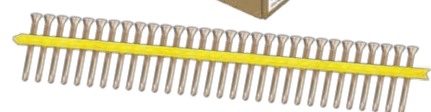

Ribbed head countersinks easily and provides a clean finish

Pilot Point with Drill Tip ideal for subfloor to cold form steel

Application	Subfloor
Fastening To	Steel Frame
Max. Recommended Material Thickness	22mm
Recommended Steel Thickness	0.75–1.6mm
Screw Finish	Yellow Zinc
Corrosion Resistance Level	Corrosion Resistance Level <b>LOW</b>
Screw Gauge	10g
Screw Length	50mm
Point	#2 drill
Collated Screw Code	<b>PPSD1050SA</b>
Box Qty	2000
Replacement Bit	BITTX25-RC10
Compatible Tool	PRO250 PRO300

Bit(s) included with every box of screws
