

# Heli-Tie Helical Stitching Tie

**Material**

304 Stainless Steel

**Size:** See the table below

**Features & Benefits**

- Helical design distributes loads uniformly over a large surface area
- Installs into the mortar joint to provide an inconspicuous repair and preserve the appearance of the structure
- 304 Stainless Steel offers excellent corrosion resistance to original reinforcement
- Patented manufacturing process results in consistent, uniform helix configuration (U.S. Patent 7,269,987)
- Batch number printed on each tie for easy identification and inspection

**Applications**

- Repair of damaged brick and masonry structures

**Construction Details**

Batch number printed on each tie for **easy identification and inspection**

**Helical design** distributes loads uniformly over a large surface area

Installs into the mortar joint to provide an **inconspicuous repair** and preserve the appearance of the structure
